

INTELCAN AWARDED CONTRACT TO PROVIDE CNS/ATM SYSTEM IN CENTRAL AFRICA

OTTAWA, ONTARIO, CANADA – JULY 16, 2008

Intelcan has recently been awarded a multi-million dollar contract to supply and install a complete CNS/ATM system for a new customer in Central Africa. Once installed, this system will improve the air safety and navigational support to our client and to the airlines that fly over this area.

Georges Ata, CEO of Intelcan, stated "We are proud to add a new customer to our extensive customer list on the African continent. This contract reinforces Intelcan's position as a key supplier of turnkey CNS/ATM solutions and confirms the benefits that customers receive when working with one supplier of airport solutions."
